

PAPYRUS PLANT

for import and export

PARTNER TO RELY ON

WHO ARE WE

Papyrus Plant is a Finland-based company located in Tampere, founded in 2024 with a clear focus on supplying high-quality fruits and vegetables to the German and European markets. We provide end-to-end supply chain solutions by working closely with trusted growers, processors, and logistics partners worldwide, with a current strategic focus on sourcing and importing fresh products from Egypt.

From sourcing and quality control to packing, export, and import, we manage every step of the process to ensure freshness, compliance, and consistency. Our mission is to deliver premium fresh, frozen, and preserved produce that meets European standards and supports reliable, year-round availability for our customers.

VISION

To become a trusted bridge between global growers and the German and European markets, delivering high-quality fruits and vegetables through reliable, transparent, and sustainable supply chain solutions.

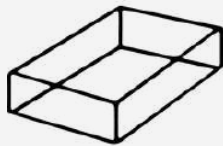

FRESH BALADI-ORANGE

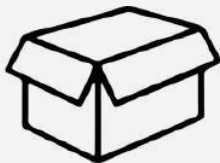

- Are small to medium sized seedy fruits with the same taste as Valencia oranges, they are easy to squeeze, deep orange in color and full of juice.
